Submitting Your Application
“"I Applied! Now What?”"
Confirmation Page

It is recommended that you print and keep a hard copy of your confirmation page for your records. Some schools require this page to be signed and mailed to the admission office to complete the application process or when submitting your check/money order or fee waiver. Specific instructions on mailing a copy of the confirmation page are found within the application and vary by institution.

Sample Confirmation Page

Once you have submitted your online application, campuses should be in touch with you via email or letter to inform you of the status of your application. If you have not been contacted by the school within 1-2 weeks of your submission, get in touch with the college or university’s admission office to inquire about your application status. You can find the contact information for your particular college or university on CFNC.org.
Now that I applied to college, where can I learn more about paying for college?

- Go to CFNC.org to research financial aid options such as scholarship opportunities, available grants, loans, and incentive programs to help make your college costs affordable.
- Speak with your family and school counselor about your financial aid options.
- Mark your calendar for FAFSA Day at a college, university, or community center near you to learn more about your options.
- Complete and submit the FAFSA as early as possible. The sooner you submit the form, the better chances you have of getting an affordable financial aid package.
- Contact CFNC for answers to questions in English or Spanish at 866-866-CFNC option 1 or questions@cfncresources.org.
- Be sure to pick up copies of the handouts before leaving the computer lab today.

Congratulations! You are on your way!
